

EnduraSpun™ ▶▶▶

High-strength spunlace
for demanding applications

EnduraSpun is designed for high-performance durability and is ideal for cleanroom environments and heavy-duty cleaning applications. Its advanced composition ensures superior strength, making it resistant to wear and tear while maintaining exceptional absorbency. Additionally, its eco-friendly materials reduce environmental impact, aligning with sustainability goals.

• Key Features

High-strength,
tear-resistant
nonwoven

Lint-free for
cleanroom
applications

Made from
sustainable
raw materials

• Applications
