

ENGINEERED FOR
PERFORMANCE.
**BUILT FOR
TOMORROW.**

Today, wipes are more than cleaning tools essential to health, hygiene, and care.

At Elixrr, we develop high-performance nonwoven substrates explicitly designed for the evolving needs of wipes manufacturers and converters.

Our nonwovens are powered by material science, sustainability, and scalable innovation, giving brands a performance advantage across industries like personal care, medical, industrial, and household.

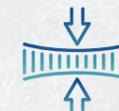

WIPE-READY, APPLICATION-SPECIFIC NONWOVENS

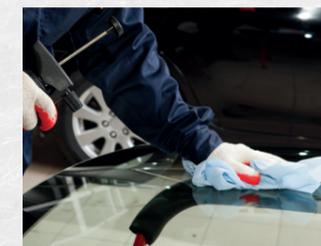

Elixrr offers **purpose-built fabric variants** tailored to your wipe category.

Whether you're launching a new SKU or upgrading a legacy product, we have you covered:

EnduraSpun™

Engineered for strength and resilience. Ideal for **industrial wipes, automotive use, heavy-duty cleaning, and medical disinfection** applications. It offers high wet and dry tensile strength, low lint, and excellent durability.

WHY ELIXRR?

Innovation Lab Access

We will open our **R&D and pilot labs** for you. Collaborate directly with our team to experiment, prototype, test, and accelerate your wipe innovations right from concept to substrate selection.

Sustainability First

All Elixrr fabrics are backed by leading global certifications. From responsibly sourced raw materials to low-impact production, we support your ESG and compliance goals.

Pentatech Precision

Our nonwovens are manufactured on **state-of-the-art Pentatech lines**, ensuring excellent uniformity, high tensile strength, liquid absorbency, and soft feel. This translates to high-speed converting and reliable roll-to-roll consistency.

Customer-Centric Collaboration

Whether you're a legacy brand or an emerging converter, our approach is collaborative. We work closely with your product and procurement teams to develop solutions matching your performance, pricing, and sustainability goals.

EcoSpun+™

Sustainability meets softness. Made with **biodegradable fibers and reduced-carbon processes**, EcoSpun is perfect for **household wipes, beauty wipes, feminine care products, and eco-conscious private labels**. It is designed to support compostability and plastic-free initiatives.

SoftSpun™

Designed for **baby wipes, cosmetics, and sensitive skin**, Softspun has an ultra-soft feel, excellent lotion-holding capacity, and a smooth surface finish. Dermatologically safe and free of harmful chemicals, Softspun elevates personal care experiences. All variants are lab-tested for **absorbency, pH compatibility, strength, skin feel, and liquid retention**.

READY TO BUILD THE FUTURE OF WIPES?

Explore a next-gen partnership with Elixrr:

- Co-create in our Innovation Lab
- Build sustainability into your SKUs
- Accelerate speed-to-market
- Meet global audit & retail standards.
